SRUC

SAHPS is a user friendly, web based, health planning system which allows farmers and their veterinary surgeons to manage flock/herd health and production in real time.

Comprehensive and tailored
Produces a tailored, concise & comprehensive health plan for your flock/herd.

Web System
Accessible anywhere, anytime.

Manage events using calendar feature
Calendar schedules flock/herd treatments and highlights key dates.

Highlights production shortfalls
View and compare your production and disease data year on year and highlight production successes and shortfalls. Compare your performance with similar enterprises locally and nationally.

Upload your documents
Upload and share documents, e.g. lab reports.

Time Saving
All of your health information in one place.

How do I access SAHPS?
If you would like further information regarding access and use of the system please get in touch via the 'Contact Us' link at **www.sahps.co.uk/contact_us**
