The Board received a presentation on the "Student Voice at SRUC" from the Head of Learning & Teaching. Annette Bruton facilitated a discussion on the Student Liaison Committee.

**Noted that:**

- a) The student voice elements of the National Student Survey (NSS) 2020 results were shared. The Mapping Student Voice at SRUC report had recently been completed and included recommendations to strengthen the student voice. The recommendations fit into six broad themes: Data and Mechanisms, Staffing and

Oversight, Students' Association, Board-level, Communications, and Student Development and Opportunities.

- b) There was great support from the Board for making the student voice a priority and it was recognised that some of the required changes were structural while others were cultural. It was also recognised that this work will take time and will require constant review to ensure the student voice is being amplified, heard and acted upon successfully.
- c) The current NSS response rate was 71.2%, an improvement on last year, and since there was still time to receive responses before the survey closed it was possible this would improve further.
- d) Annette Bruton, the Chair of the Student Liaison Committee (SLC), outlined that while the arrangements for 2020/21 had been confirmed at the previous Board meeting, there was still work to be done to clarify confusions and overlaps between the SLC and other groups. Great support had been received from SRUCSA and Annette would be working with the Learning and Teaching team to take this further.
- e) The Chair of SLC made the following recommendations which were all **agreed**:
  - Co-chair: The SRUCSA Co-President from the geographic region would be the co-chair for the SLC meeting.
  - Class-rep training: SRUCSA are currently reevaluating and would like to include a video from the Board/ Board members.
  - Campus tour/ showcase/ best practice/ talk: To take place on the same day as the SLC meeting and SLC Chair to report back to the Board.
  - SLC priorities: The Board to agree priorities in September for discussion at SLC meetings throughout the year. The SLC Co-Chairs would then prepare a summary for the Board after the meeting. A "you said, we did" item should be included at the start of SLC agendas.

**Action: AB**

**21.10.04      Balanced Scorecard update**

The Board received a "Balanced Scorecard update" from Jennifer Volk, the Business Intelligence Analyst, and the Chief of Staff (paper 470).

**Noted that:**

- a) While the Balanced Scorecard (BSC) had met the original goals of enabling better oversight of organisational performance, there was a need to review the measures included and ensure there was clear ownership of the KPIs.
- b) A new approach to the BSC was presented at the March Senior Leadership Team (SLT) meeting where they agreed the steps forward for determining the KPIs and owners for the "operational" side of the BSC.
- c) In order to improve BSC input and dialogue, ownership of KPIs, and the use of quality measures/data, the following recommendations were made:
  - separate the dual-purpose BSC into 2 different sections – one for the Board and one for ELT
  - create a Strategic Performance subgroup (non-execs and executive membership)
  - ELT BSC to incorporate more input from SLT (to ensure better accountability and alignment to operational objectives)
- d) The BSC and how it is framed also serves an important role in the Degree Awarding Powers process, as the BSC demonstrates SRUC's delivery to strategy and sustainability through its versatility.

- e) There was discussion about whether having two BSC would result in a disconnect between them and whether the approach should be one map for one strategy for one organisation. It was also suggested that it was possible to have different scorecards as they were essentially just a mechanism for setting and measuring objectives. Multiple “lenses” could be used to review the BSC data and present it for different audiences/purposes.
- f) The BSC had a strategic and multi-year focus while the Operational Plan had a 1-year and operational focus based on budget.

**Agreed that:**

- a) A Strategic Performance subgroup should be created with the remit outlined in the paper. The Non-executive members would be Annette Bruton, Elma Murray, and Chris Sayers. Dennis Overton would also be asked to be a member in order to connect the BSC process to the SAC Commercial Board. The ELT would confirm their members.

**Action: ELT**

- b) The timeline for delivering the revamped BSC would be the October 2021 Board Strategy Session.

**Action: GM**

- c) Based on questions from the Board, the Strategic Performance sub-group would look at the BSC, Operational Plan and Corporate Planning and discuss how they all fit together.

**Action: GM**

#### **21.10.05 Risk Register update**

The Board received a “Risk Register Update” from the Chief of Staff (paper 471).

**Noted that:**

- a) While SRUC has strong components of a risk management system, there is a need to integrate the various risk registers/monitoring systems into one institutional level system, while maintaining connectivity between operational level risk management and the corporate level risk identification/mitigation process. The development of a formal Risk Strategy would be an important part of this process.
- b) The A&R Committee has reviewed and approved the KPMG audit report recommendations.
- c) It was important for the Board to have confidence in the risk mitigation actions being taken forward and receive regular assurances from the A&R Committee.

**Agreed that:**

- a) The Board **approved** the development of a revised and enhanced risk management system (over the next 12 months) as outline in the KPMG audit report.
- b) The Board **approved** the recommendation to delegate responsibility to the Chair of the Audit & Risk Committee to oversee the development, transition, and implementation of the revised/enhanced risk management system.

- c) The current Risk Register would continue to be reviewed and updated by the ELT and A&R Committee (for presentation to the Board) during this transition time.
